Soft Skills

- Effective Communication
- Presentation & Reporting Skills
- Project Coordination & Time Management
- Analytical Thinking & Problem Solving
- Team Collaboration & Cross-functional Work
- Self-motivation & Accountability
- Adaptability & Flexibility in Remote/Hybrid Environments
- Technical Documentation & Knowledge Sharing
- Attention to Detail
- Continuous Learning & Initiative

Work Experience**LMS Developer & Technical Specialist**

Information Technology Institute(ITI), Ministry of Communications and Information Technology – Smart Village, Cairo

October 2019 – Present

- Leading the technical administration and development of the Maharatech eLearning platform, including user support, content updates, and performance optimization.
- Customized Moodle themes and plugins to match branding and functional needs.
- Developed custom blocks, activity modules, and course formats using PHP & Moodle API.
- Integrated H5P, SCORM, and xAPI content into Moodle and managed data tracking.
- Created custom data reports from Moodle logs and activity data using Excel, and designed presentations to visually communicate platform usage and learning progress.
- Provided technical support, user training, and documentation for educators/admins.

Technical Trainer – Programming & LMS Tools

Information Technology Institute(ITI), Ministry of Communications and Information Technology – Smart Village, Cairo

October 2019 – Present

- Deliver training sessions in programming and learning technologies for university students and academic staff.
- Develop customized training materials focusing on Moodle LMS, frontend/backend development, and eLearning integration.
- Facilitate practical workshops that enhance digital education competencies in higher education.
- Collaborate with ITI to align training outcomes with market and academic needs.
- Mentor learners on best practices in eLearning implementation and platform utilization.

Freelance LMS Developer (Remote)

Self-Employed / Upwork

2020 – current

- Built LMS platforms for institutions using Moodle and WordPress + LearnDash.
- Migrated LMS content between platforms and upgraded Moodle versions.
- Implemented custom reports and dashboards for learning analytics.

(worked on many Moodle LMS projects that are not listed in CV due to client confidentiality.)

Certifications

- Oct. 2019 | Training of Trainers & High impact presentations, Dale Carnegie Training.
- July 2019 | Learning & Development - Children's Cancer Hospital Egypt 57357.
- July 2018 | Business Planning and Developing at Continuing Education Center
- Feb. 2018 | Attending International Conference on Innovative Trends in Computer Engineering, Aswan, Egypt.
- July. 2017 | Embedded SW Boot Camp Training - Swift Act Company.
- Nov. 2016 | Competitive Programming AAST Camp.
- Aug. 2016 | Aswan International Airport - Training General Department.
- Jan. 2015 | InnovEgypt - Technology Innovation and Entrepreneurship Center(TIEC).
- Feb. 2015 | Intel Ideation Workshop.
- June 2008 | Database Design and Programming with SQL - Oracle Academy.

Languages

- Arabic – Native
- English – Professional Working Proficiency
